

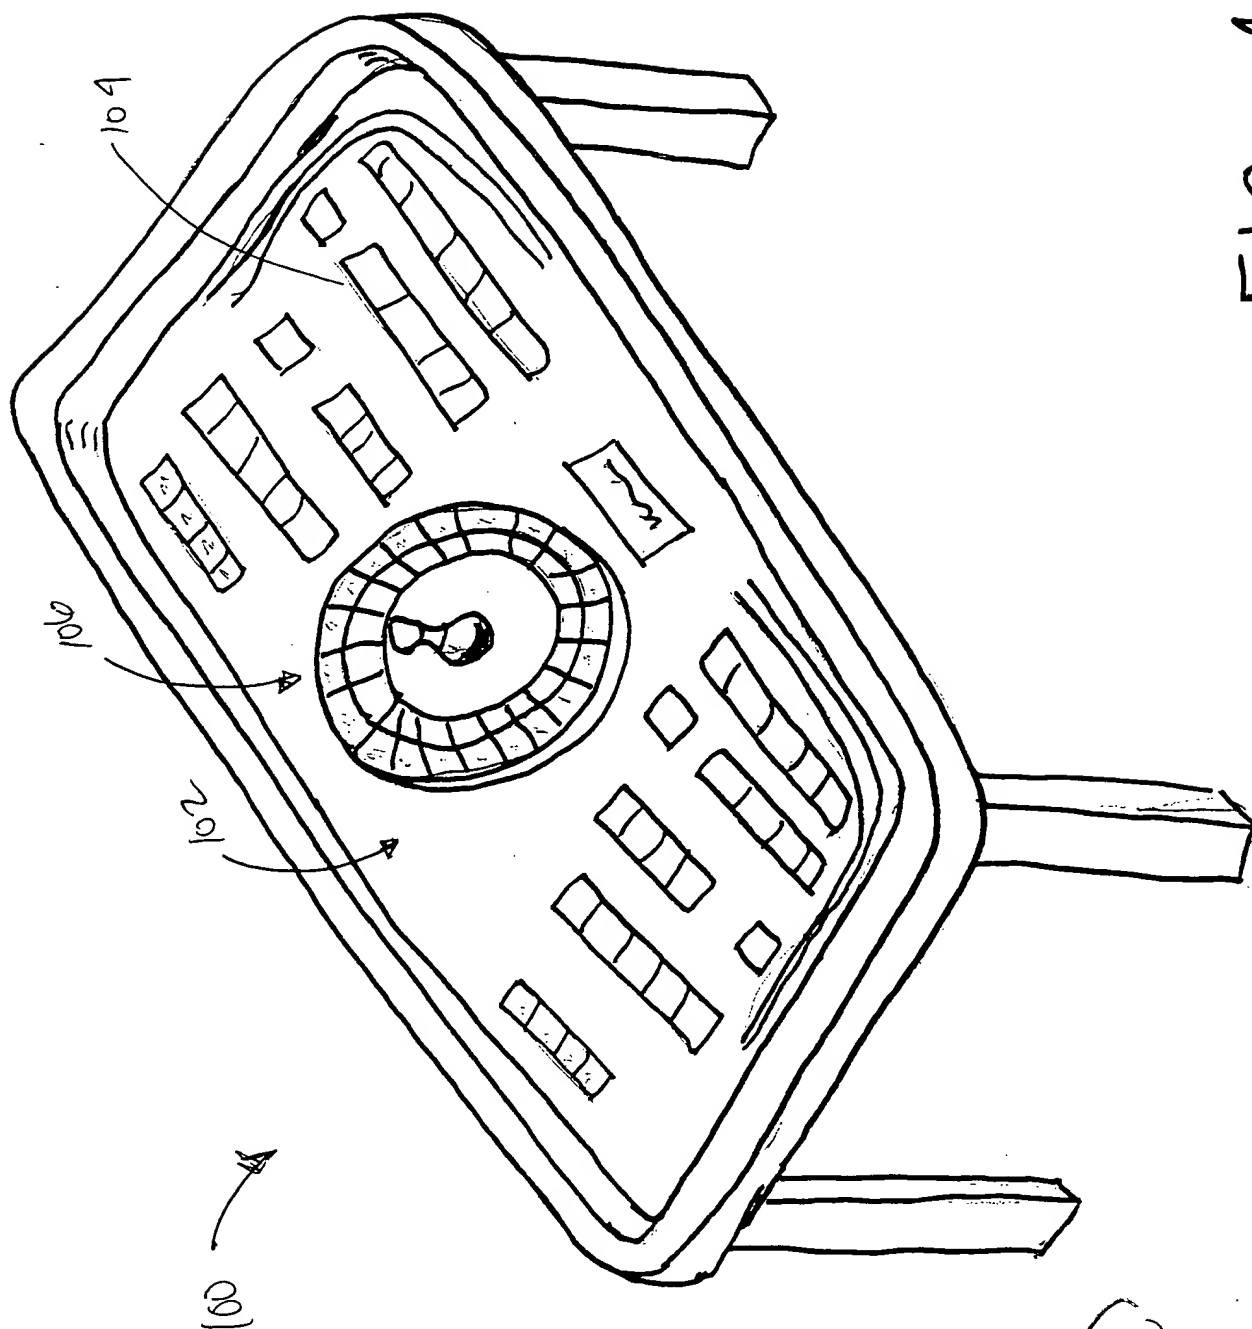

FIG. 1 is a perspective view of a rectangular board game with a central circular dial and several rectangular pieces arranged on the board. The board is shown with a perspective view, and the pieces are arranged in a specific pattern. The central dial is a circular feature with a central knob and a grid of numbers or symbols around it. The rectangular pieces are arranged in rows and columns on the board. The board has a rectangular shape with rounded corners and a raised edge. The pieces are small rectangular blocks, some of which are numbered or labeled. The board is shown with a perspective view, and the pieces are arranged in a specific pattern. The central dial is a circular feature with a central knob and a grid of numbers or symbols around it. The rectangular pieces are arranged in rows and columns on the board. The board has a rectangular shape with rounded corners and a raised edge. The pieces are small rectangular blocks, some of which are numbered or labeled.
